PROFILE SUMMARY

Java Full Stack Developer | End-to-End Web Application Development

Enthusiastic Software Engineer Fresher with strong expertise in **Java, Spring Boot, JDBC, REST APIs**, and full-stack development using **HTML, CSS, JavaScript, React, and Next.js**. Experienced in building scalable backend modules and responsive frontend interfaces, with solid knowledge of **MySQL, PostgreSQL, and MongoDB**. Skilled in **Git/GitHub, Agile methodologies, debugging, and problem-solving**. A fast learner and collaborative team player committed to delivering high-quality, clean, and efficient software solutions..

SKILLS

- Languages: Java, JavaScript
- Frontend: React.js, Next.js, HTML5, CSS3
- Backend: Spring Boot, REST APIs, JDBC
- Databases: MySQL, PostgreSQL, MongoDB
- Tools: Git, GitHub, Maven, IntelliJ IDEA, VS Code
- Concepts: OOP, API Design, Database Optimization, Responsive Design

WORK EXPERIENCE

Java Full Stack Developer Intern | Amdox Technologies, Bangalore

Oct2025– Jan 2026

- Worked on the development of the Automated Task & Issue Integration Platform using Java, Spring Boot, React.js, and SQL
- Developed RESTful APIs for task management, issue tracking, and workflow automation
- Designed and integrated frontend components with backend services for seamless user interaction
- Optimized database queries and improved application performance using MySQL/PostgreSQL
- Collaborated in Agile development environment using Git/GitHub for version control
- Participated in debugging, testing, and deployment of scalable web application modules

Java Developer Intern | Conifyz, Bangalore

Sept2025 – Oct 2025

- Developed backend modules using Core Java, JDBC, and REST APIs
- Implemented CRUD operations and database integration with MySQL/PostgreSQL
- Improved backend efficiency through query optimization and debugging
- Worked with Git/GitHub and followed Agile development practices

PROJECTS

1. AutomatedTask & Issue Integration Platform

Tech Stack: Java, Spring Boot, React.js, MySQL

- Developed a full-stack platform for task and issue tracking
- Built REST APIs and integrated frontend with backend services
- Optimized database queries and implemented workflow automation

2. VR_Therapy.AI_23

Tech Stack: Java, HTML, CSS, JavaScript

- Developed a VR-based mental wellness platform for relaxation and stress management
- Designed responsive UI and interactive user experiences

3. Serverless-Guestbook

Tech Stack: AWS, JavaScript, DynamoDB

- Built a serverless guestbook application using cloud-based services
- Implemented scalable backend integration and real-time data handling

4. AI-powered-outfit-styling

Tech Stack: React.js, Spring Boot, REST APIs

- Developed an AI-based outfit recommendation system
- Built responsive UI and integrated backend recommendation features

EDUCATION

Bachelor of Technology (Computer Science Engineering), Government College of Engineering Kalahandi (2021 – 2025) | CGPA: 7.5/10

Higher Secondary (12th – Science), Young Blood Public School, CBSE (2021) | 69%

Secondary (10th), Young Blood Public School, CBSE (2019) | 63%

LANGUAGES

English, Hindi, Odia
